

Your 2009
Rx Selections™
Member Guide

Bring this with you to each doctor visit and
save money when your doctor prescribes
generics and **preferred medications.**

Benefit reminders

- **Use a participating retail pharmacy to fill your prescriptions.**

You'll pay only your co-payment up front.

- **Use *Medco By Mail* for medications you take on a long-term basis.**

You'll generally pay less for up to a 90-day supply. And your order can be conveniently delivered to your home or office.

- **Medco may contact your doctor about your prescription.**

If you have a prescription for a nonpreferred medication, but a preferred alternative exists, Medco may contact your doctor to ask whether the preferred drug would be right for you.

- **Your plan may have certain coverage limits.**

If you submit a prescription for a medication that has coverage limits (e.g., for specific uses or for a specific days' supply), the participating pharmacy will let you know that more information will be needed from your doctor.

Throughout this guide, drugs that may have coverage limits will be designated as such. Also, at the end of the guide on page 20-21, there is important information about the drugs that are subject to coverage limits.

Visit **www.medco.com** for more information about your prescription drug plan or to find a participating retail pharmacy near you.

Rx Selections Member Guide

What is this guide?

This guide contains a list of generic and brand-name drugs that are preferred by your health plan.

- You will pay the **lowest co-payment** for generic drugs.
- You will pay a **higher co-payment** for brand-name drugs that are included on your plan's list of preferred drugs ("preferred").
- You will pay the **highest co-payment** for brand-name drugs *not* included on your plan's list of preferred drugs ("nonpreferred").
- In some cases, your plan sponsor may not cover certain medications listed in this member guide.
- This information was in effect at the time of printing and may be subject to change.

Follow these easy steps to save money on prescription drugs:

1

Bring the guide with you to each doctor visit.

2

If you need a prescription, ask your doctor to consider prescribing one of the less expensive generic or preferred brand-name drugs in this guide.

Coverage Limits

Message to the patient - The following lists of drugs describe the different types of coverage programs that may be in place for Medical Mutual patients. Your pharmacy benefit may not require you to go through a coverage review for these drugs. You can verify if you will be subject to these coverage rules by visiting **www.medco.com** or calling the number on the back of your identification card for customer service.

Message to the doctor - If your patient is taking one of the following drugs and is required to obtain an authorization before obtaining the drug, you can request a coverage review fax form at 800-753-2851.

Prior Authorization Required

For certain drugs, you are required to obtain prior approval before the drug is covered by your plan. All of the generic equivalents to the brand name drugs listed below are subject to coverage rules unless indicated. The following list of drugs is subject to prior authorization:

Accolate	Dextrostat*	Lybrel	Revatio
Actiq	Diflucan*	Metadate CD*	Ritalin*, LA*, SR*
Adderall*	Elidel	Metadate ER*	Singulair
Adderall XR	Enbrel	Methylin ER*	Sporanox*

Dacogen	Iplex	Provigil	Xolair
Daytrana	Lamisil	Raptiva	Zyflo
Desoxyn	Lamisil Oral	Remicade	
Dexedrine*	Granules	Retin-A*	

*Indicates that both the brand and generic version of the drug are subject to a coverage limit.

† Indicates that drug is not eligible for a coverage review.

Step Therapy

A step therapy program requires that another drug be tried before the target drug is covered by your plan unless special circumstances exist. All of the generic equivalents to the brand name drugs listed below are subject to coverage rules unless indicated. The following list of drugs is subject to step therapy:

Aciphex	Celexa	Luvox CR	Remeron
